

# PANORAMA 2019

**Our Mission**

**“Developing enlightened global citizens with involvement of all beneficiaries.”**

## *Director's Message. .*

**Education is the basis of all progress. It is for this very reason that we forayed into education, about 30 years ago. Over a decade and a half experience has taught us that progress is possible only if men and women are equally well-educated.**

**Greenwood Public School aspires all students to succeed in their world. It offers a wide variety of challenging, enjoyable and successful curricular opportunities, athletic programmes, performing arts and musical programmes with various clubs and activities.**

**The entire purpose of education is not to restrict itself to imparting bookish knowledge only but inculcating humanitarian values like wisdom, compassion, courage, humility, integrity and reliability in a student.**

**We, just like you believe in holistic education for your child encompassing – academics, co-curricular activities, sports education and life-skills learning. Our endeavour is to strike a balance between state-of-the-art infrastructure and an internationally acceptable education.**

**At Greenwood Public School we impart education that is based on conscience and we rear a breed of young minds that are bustling with self confidence, motivation and ever ready to take up challenges.**

**The campus, sports and academic facilities all bear testimony to this effort. In order to promote an internationally acceptable education, our key focus has been on faculty development – providing continuous teacher training in order to deliver real value education and excellence in academics. Teachers are trained not only to teach well but are also expected to inspire confidence and trust in their students and become role models. Further, the School inculcates in the students a respect for tradition and ensures discipline and good manners.**

**Greenwood Public School encourages students to learn about themselves and their constantly changing environment, while at the same time offering support and guidance as they practise decision-making and social skills.**

**Academic excellence with character and personality development is our ultimate goal. The well chalked out academic and co-curricular programme enables the students to attain their full potential and develop sound work habits. The academic work is centered on highly personalized attention and supervision.**

**We are confident that this school is the best place for your child. We welcome your active interest and involvement in the progress and activities of your child and look forward to your continuous support.**

**May we continue to give our students strong roots like the Banyan Tree and stronger wings to conquer the world!!**
